SOLARIS DYNAMICS INC
FINANCIAL SUMMARY & VARIANCE DISCLOSURES - FY2024

1. Operational Outlays & Negative Operating Income
During fiscal year 2024, Solaris Dynamics navigated severe supply chain inflation.
Operating revenue reached $150M against operating expenses of $180M, yielding an operating deficit of -$30M.

Table 1: Regional Operational Income (in millions)
- Americas Region: $40
- EMEA Region: -$25
- APAC Region: $15
Total Regional Operational Income: $30

Note: The stated total of $30M reconciles with 40 + (-25) + 15 = 30.

2. Injected Rate Discrepancy
Stated operating revenue expanded by 40% from 100 to 120 during the annual period.

SOLARIS DYNAMICS INC
PROJECT CHRONOLOGY & FOOTNOTES

3. R&D Initiative Timeline
Under corporate restructuring, Project Helios commissioning was finalized in January 2024, while Project Helios charter kickoff began in August 2024.

4. Supplementary Footnote Disclosures
Cash and cash equivalents totaled $85M at year-end.
Management anticipates moderate seasonal revenue fluctuations in future quarters.
